### TRENTHAM ESTATE

"I engaged the services of Think Graphics nine months ago after hearing favourable recommendations about their graphic design services. They helped by redesigning and, in some cases, modernising my print works including; Australian Polity Magazine, my newsletter, cards, brochures and booklets. I am extremely impressed with their overall creativity as well as their professionalism and efficiency - especially within tight deadlines".

**The Hon Kevin Andrews - Member for Menzies**

"The Design Team at Think graphics were terrific. They were consultative in their approach: guiding, suggesting, supporting, advising but most importantly... listening! They moved our thinking from having a product to sell to promoting a service we deliver. It wasn't about cars it was about empowering the trainee and so the graphics and the poster they designed focused on the trainees not the cars they were going to work on. Using a 'movie poster' and 'super hero' feel was just brilliant! Our social media traffic increased dramatically and our student intake was highest it's been in 5 years. Thanks so much!"

**RTO Director, Learning Alliance and Hand Brake Turn.**

"James worked with the Ultra team to come up with a new brand identity for our Nitro range of LED driving lights with the brief being to create a lifestyle theme that reflected the values of the brand. James did an exceptional job in creating a template that was able to be used across multiple platforms - website, advertising, Facebook and packaging. We have benefited from James' professionalism and attention to detail and as a result of his work we have had our most successful launch ever".

**Brett Tunley - Head Of Operations Ultra Vision Lighting**

"From concept to completed design, Think graphics were amazing. They designed our logos and erected all the signage on our buildings. An excellent job was done with the wrap on our truck too. Think graphics are committed to their customers and our projects required several visits to our site and many, many conversations which they attended to with a professional yet personable approach. We would definitely use them again and highly recommend their services".

**Vanessa Lister, CEO, AvServe – January 2017**

"James has always looked after us really well. Apart from the prompt service and excellent graphics, he is always pleased to look after all aspects of end product production like organising printers and talking to others in the supply chain. But most of all we appreciate his creativity. He produces graphic ideas that present our message in ways that are so much better than we initially imagined".

**Rowan Cooper - Saward Dawson.**

"As a politically charged and demanding business, providing timely assistance and reliability is crucial. After searching for a dependable designer, we made the decision to engage Think Graphics for our newsletter, printing and promotional needs. James and his team have the proven capabilities needed for our brand and name recognition".

**Ralph Krein - Office of Graham Watt MP  
Member for Burwood in the Victorian Parliament**
